On the UCPKN website a [story](#) is available, dedicated to the ROADMAP2 final workshop.

The recording of the workshop is available on the [YouTube channel](#) of the Italian Civil Protection Department.

3. CONCLUSIONS

Apart from being an opportunity to share achievements, the final workshop was fully exploited to discuss how to manage the ROADMAP2 legacy in terms of sustainability and product maintenance, as well as to identify possible future developments.

Valuable suggestions were provided by the Project Officer, who listed a number of calls for proposals to be opened by the European Commission in early 2025.

Comments and suggestions on topics and activities to be developed in the future were provided by the CEO members, concerning both the CEO composition and the GPs (see Deliverable D2.4 for further details).
